INTERNSHIPS

Scalefull Technologies LLP | IT / Computers - Software   20 Dec, 2024 - 03 Feb, 2025
Machine Learning Intern

Key Skills: Docker   NodeJS   Machine Learning   ReactJS

During my internship at Scalefull Technologies, I worked on a combination of machine learning and web development, gaining hands-on experience in building and deploying ML-powered applications.

My contributions included:
1.Developing machine learning models, ensuring efficient training and inference.
2.Preprocessing and analyzing datasets to extract meaningful insights and improve model performance.
3.Building a dynamic web application using React.js to create an interactive frontend for users.
4.Containerizing the website using Docker, enabling seamless deployment and scalability.
5.Integrating ML models with the website, ensuring smooth interaction between the frontend and backend.

Esparse Matrix Solutions Pvt Ltd | IT / Computers - Software   25 Jul, 2022 - 12 Sep, 2022
Software Engineer Intern

Key Skills: Javascript   Bootstrap   CSS   HTML

During my web development internship at eSparse Matrix Solutions Pvt. Ltd., I worked on designing and developing responsive websites using HTML, CSS, and JavaScript.
My role involved:
1. Creating visually appealing and user-friendly web pages following modern UI/UX principles.
2. Implementing CSS animations and responsive design to enhance user experience across devices.
3. Writing clean, structured, and maintainable JavaScript code to add interactive features.
4. Collaborating with the team to integrate frontend components with backend services.
5. Debugging and optimizing websites for better performance and cross-browser compatibility.

PROJECTS

Real-Time Collaboration Tool   01 Jan, 2025 - 31 Jan, 2025
Team Size: 1

Key Skills: ReactJS   NodeJS   Redux   Docker

Project Link: https://github.com/Chinmay2390/CollabTool

-Developed a real-time collaboration platform enabling multiple users to edit and update documents simultaneously.
-Implemented WebSockets for low-latency, synchronized updates across all users.
-Optimized the UI/UX for a seamless experience, ensuring minimal lag even with 100+ concurrent users.
-Reduced synchronization latency by 40% through efficient state management and debouncing techniques.

Stock Price Prediction   01 Aug, 2024 - 30 Sep, 2024
Team Size: 1

Key Skills: Machine Learning   ReactJS   NodeJS   Docker

Project Link: https://github.com/Chinmay2390/Stock-Trend-App

-Developed a machine learning-based stock price prediction model using LSTM and XGBoost.
-Processed and analyzed 5+ years of historical stock data to identify trends and patterns.
-Improved prediction accuracy by 25% through advanced feature engineering and hyperparameter tuning.
-Optimized data preprocessing pipelines, reducing training time by 35%.
-Deployed the model via a Flask API, making predictions accessible via a web interface.
-Integrated real-time stock market data to continuously update and refine predictions.

ASSESSMENTS / CERTIFICATIONS

DevOps for Network Automation (NetDevOps)   20 Mar, 2040
